0.1428571...

When you divide 1 by 7 you get this decimal. What happens when you divide 2 by 7? What about $\frac{3}{7}$ and $\frac{4}{7}$ and $\frac{5}{7}$ and $\frac{6}{7}$? Now choose some other fractions and find their decimal forms.

ACTIVITY FOR ALL

How would you share a bag of sweets equally between 7 people?

How would you share a cake?

What about sharing money?
