

FIFTEEN GAME

<https://aiminghigh.aimssec.ac.za/fifteen-game-collection/>

$$\begin{array}{c} 3 + 5 + 7 \\ 4 + 5 + 6 \end{array}$$

$$2 + 4 + 9$$

This is a game for 2 players. The winner is the first to pick three numbers that add up to 15. Take it in turns to choose one of the whole numbers **1** to **9** until either one of the players has claimed 3 numbers that add up to **15**, or all 9 numbers are taken. Numbers can only be used once. Try it without writing anything down.
