

RULES

For all the games large cards can be downloaded from the Let's Play link and cut out.

Choose the cards for the game you want to play. If you are not familiar with the cards, sort them into pairs before you play. Shuffle the cards and place them face down on a table, in rows and columns or just spread out. Players take turns to turn over 2 cards. When they match, the player keeps the pair and has another turn. If the cards don't match the two cards are turned face down in the same positions and the next player has a turn.

HOW TO WIN

The winner is the player with the most pairs when all the pairs of cards have been claimed.

MATCHING THE CARDS

If all these times are between noon and midnight match the times given on the 12-hour clock with the times given on the 24-hour clock. Put them in order.

Now match all the times in the first two sets of cards with the times shown on the clockface and the times as we speak about them shown in the second two sets of cards.

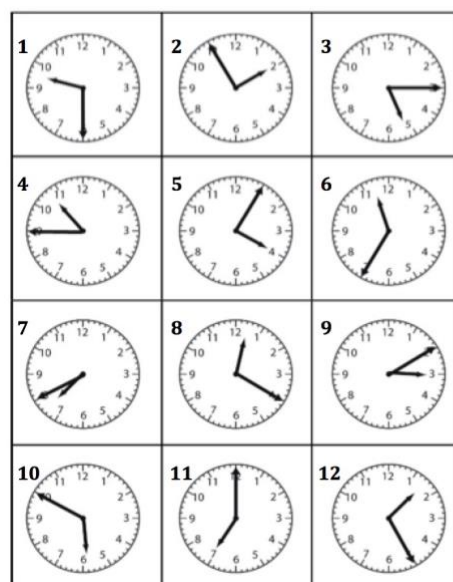

The short hand on the clock face points to the hour and the long hand points to the minutes. Clock 1 shows that the time is between 9 o'clock and 10 o'clock and it also shows 30 minutes so we say that the time is 9.30 (card Z).

There are 60 minutes in an hour, 30 minutes in half an hour and 15 minutes in a quarter of an hour. We say 9.30 or half past nine (card E). A new day starts at midnight.

The twelve hours from midnight until noon are the morning hours – **BEFORE NOON** which, in Latin, are **ANTE MERIDIEM (am)** so 9 o'clock in the morning is 9.00 am.

Times as shown on the 12 hour clock		
O 5.50	P 5.15	Q 11.35
R 12.20	S 4.05	T 10.45
U 1.25	V 7.40	W 3.10
X 1.55	Y 7.00	Z 9.30

Afternoon times as shown on the 24 hour clock		
13 16.05	14 17.50	15 21.30
16 23.35	17 19.40	18 13.25
19 15.10	20 00.20	21 19.00
22 22.45	23 13.55	24 17.15

A Twenty five to twelve	B Seven o'clock	C Quarter past five
D Twenty past twelve	E Half past nine	F Ten to six
G Quarter to eleven	H Twenty five past one	I Five past four
J Ten past three	K Five to two	L Twenty to eight

4 sets of cards downloaded from the Let's Play link.

HELP

In the afternoon, from 12 noon until midnight, or **POST MERIDIEM (pm)**, the time is given in two ways:

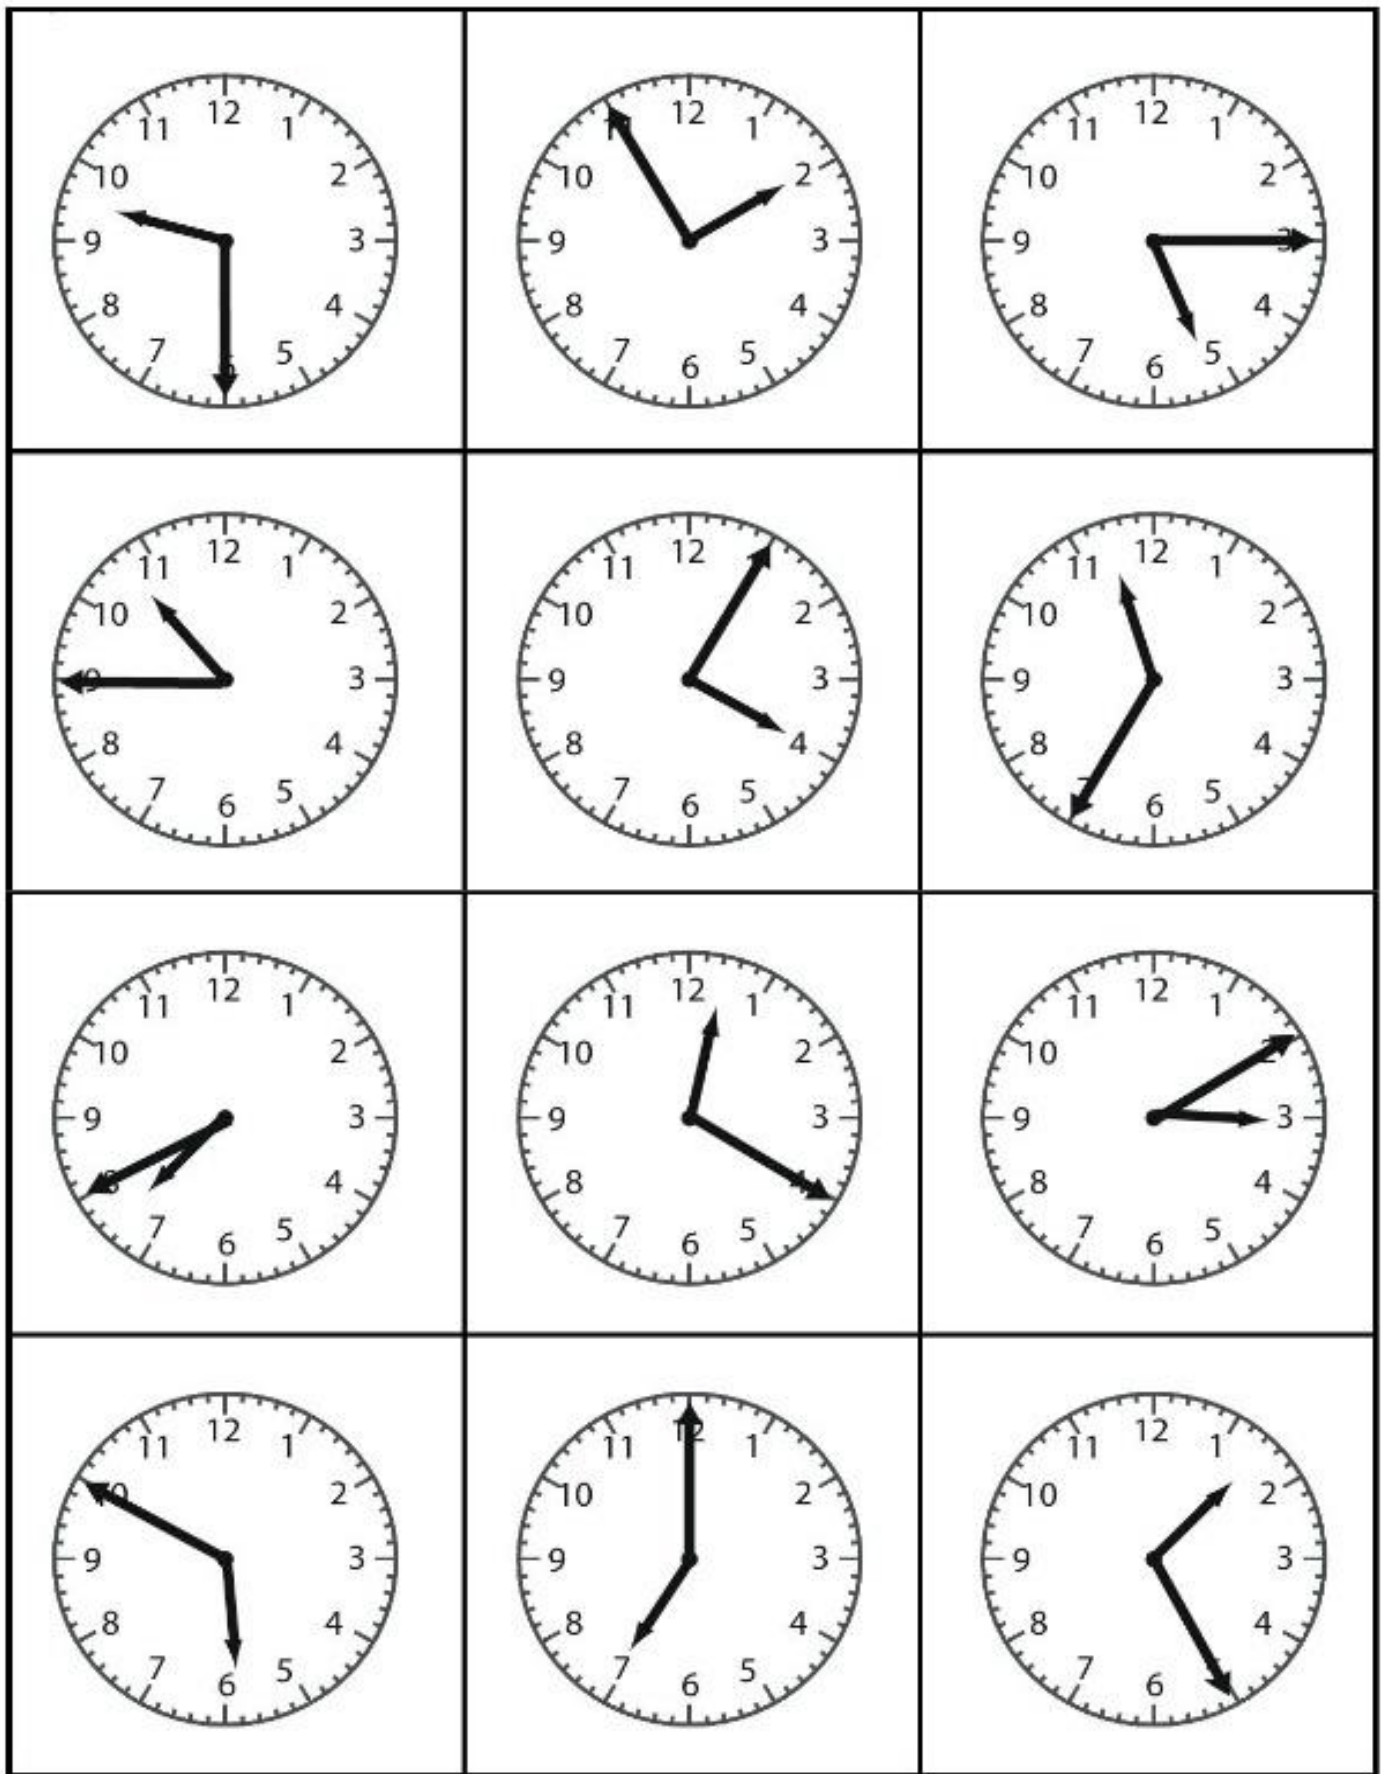

- (1) the 12-hour clock shows 1.00pm, 2.00pm up to 11.00pm and midnight
- (2) the same times on the 24-hour clock are 13.00h, 14.00h up to 23.00h and midnight.

Clock 1 shows 9.30 am in the morning on the 12-hour clock and 9.30 pm in the evening, so you should match the picture of clock 1 with card Z. As 30 minutes is half an hour, the time is half past nine (card E) and in the evening that is 21.30h on the 24-hour clock (card 15).

NEXT

Learners in your class might work in groups to plan a journey using bus, train or airline timetables, or use the internet.

They might also find out about time zones and compare the time taken and cost with different forms of transport and different routes.

Half past nine	Five to two	Quarter past five
Quarter to eleven	Five past four	Twenty-five to twelve
Twenty to eight	Twenty past twelve	Ten past three
Ten to six	Seven o'clock	Twenty-five past one
