

ROLLOVER GAMES

<https://aiminghigh.aimssec.ac.za/rollover-games/>

ROLLOVER GAMES

In the ROLLOVER GAMES players take turns to lay out the tiles and can make shorter or longer paths. The dice is placed on the starting square and players have to decide what number will be on top when the dice has been rolled from tile to tile along the path without sliding.

ROLLADISC GAMES

In the ROLLADISC games players have to decide what colour will be on top when the disc has rolled along the line.
